

# Some things to consider

- The current average CORE test site wait time is 30 minutes.
- Test sites will close early if/when the 500-test daily max. is reached.
- Walk-up patients are advised to bring a folding chair, a bottle of water, and an umbrella (if the forecast calls for rain) for while they wait.
- CORE test sites do not have public restroom access.
- If CORE's on-site weather monitoring devices indicate lightning within 6 miles of the site, the site will be shut down for 20 minutes. If a lighting delay is triggered within the last hour of operating, the site may close early for the day.
- Testing site locations, dates, and/or times are subject to change. Visit [CORERESPONSE.ORG/COVID19-ATLANTA](http://CORERESPONSE.ORG/COVID19-ATLANTA) the day of testing to confirm testing site information.

# Getting your test results

- CORE returns COVID-19 test results by phone and/or email.
- CORE utilizes the lab services of both LabCorp and Bako/Curogram. Test result timelines vary as lab demands fluctuate, but it is safe to expect results back within 5-7 days of taking a test.
- If it takes over a week to receive results, you can log onto **PATIENT.LABCORP.COM** and create an account, email **fcboh.covid@dph.ga.gov** with your full name and date of birth, or call the county hotline at **(404) 613-7295**. If you call, be prepared to give your full name, phone number, date of birth, and date and location of your COVID-19 test.
